

Cloud Town — Episode 74

The pour-pitcher

AWS Database Migration Service. Copy the pages while the old notebook keeps working.

Oh no! Maya's notebook has every recipe, and she cannot carry it up without losing pages! Welcome back to Cloud Town, high up in the sky! This is Episode 74. Meet the pour-pitcher. It dips its spout into the old notebook and pours the pages up, one by one. And Maya keeps writing the whole time. The new drawing flows up too. Up on the cloud, the pages land in a new notebook, in the same order. Not one page lost. Not one minute closed. That is AWS Database Migration Service, DMS. It copies a database to the cloud while the old one keeps working. Now you know the pour-pitcher! See you next time in Cloud Town, high up in the sky!
