

Cloud Town — Episode 82

The river chute

Amazon Kinesis. A live stream of notes, the moment they are made.

Oh no! Cups are selling so fast, Maya cannot catch the cards as they come!
Welcome back to Cloud Town, high up in the sky! This is Episode 82. Meet the river chute. Every new card floats down, one after another, in order. The lamp reads them on the way. Count, count, count, as they go by. More cups? The river gets wider. Two lanes, three lanes, nothing bumps. At the end, every card lands in the basket, still in order. The notes flow like a river, live, as things happen. That is Amazon Kinesis. It carries a live stream of data the moment it is made. Now you know the river chute! See you next time in Cloud Town, high up in the sky!
