

Cloud Town — Episode 73

The lift-cart

AWS Application Migration Service. Lift the whole server as it is.

Oh no! Maya's old stand is too heavy to carry up to the clouds! Welcome back to Cloud Town, high up in the sky! This is Episode 73. Meet the lift-cart. It slides under the whole stand, just as it is. Friends keep buying cups the whole time. Then the balloons puff up. The stand lifts off, counter, cups, pitcher, everything, in one piece. Up through the clouds. Not one drop spilled. On the cloud, it lands in its new spot. Same stand, same cups, same pitcher, now up in Cloud Town. Nothing to rebuild, nothing to repack. That is AWS Application Migration Service, MGN. It lifts a whole server to the cloud as it is, while it keeps running. Now you know the lift-cart! See you next time in Cloud Town, high up in the sky!
