The movers

AWS migration. Five movers, one job: get everything up to the cloud.

Oh no! Maya's whole stand is still down on the ground, and Cloud Town is way up there! Welcome back to Cloud Town, high up in the sky! This is Episode 72. Meet the movers. The lift-cart slides under the whole stand and floats it up in one piece. The pour-pitcher pours the old notebook into a new one, page by page, while Maya keeps writing. The bucket-chain passes lemons up, one by one, fast. The snow-box carries a whole mountain of lemons at once. And the mail-chute lets friends drop letters the old way, straight into the cloud. Five movers, one job: get everything up to the cloud, safely. That is AWS migration. Now you know the movers! See you next time in Cloud Town, high up in the sky!
