## VOICE-OVER (COPY THIS)

Welcome to Cloud Town, high up in the sky! Meet Sammy the Super Storage Box. Sammy is S3. He keeps photos, toys, and files safe forever. Here's Eddie. Eddie is EC2, a computer who never sleeps. He runs websites and games all day long. And this is Lulu. Lulu is Lambda. She pops in, does one job super fast, then poofs away. Together they make the cloud work. Now you know AWS!

## NEIGHBORS (KID WORD = AWS)

### Sammy = S3

#### Super Storage Box

Keeps photos, toys, and files safe forever.

Sammy is Amazon S3 — a giant storage box in the sky. When you save a drawing, a photo, or a file, Sammy tucks it away and never loses it. Think of a magic closet that never fills up.

### Eddie = EC2

#### Always-On Computer

A computer who never sleeps, running websites and games.

Eddie is Amazon EC2 — a computer you can borrow in the cloud. He stays awake all day and all night so websites and games keep running, even while you sleep.

## **Lulu = Lambda**

### **Magic Helper**

Pops in, does one job super fast, then poofs away.

Lulu is AWS Lambda. She only appears when you need her — send a picture, count a score, zip a file — then she disappears. You don't keep a whole computer on. You just call Lulu.

## **QUIZ**

### **1. Who keeps photos and files safe forever?**

Choices: Sammy · Eddie · Lulu

Answer: [Sammy \(S3\)](#)

### **2. Who is the computer that never sleeps?**

Choices: Sammy · Eddie · Lulu

Answer: [Eddie \(EC2\)](#)

### **3. Who pops in, does one job, then poofs away?**

Choices: Sammy · Eddie · Lulu

Answer: [Lulu \(Lambda\)](#)

## **RECAP**

Sammy stores. Eddie runs. Lulu pops in. That is the cloud.

Perfect! Sammy stores, Eddie runs, and Lulu pops in for one fast job. That's AWS.
