

The cubby extras

DAX, twin towns, paying for grabs, now vs in a moment.

VOICE-OVER (COPY THIS)

Welcome back to Cloud Town, high up in the sky! This is Episode 15. DynamoDB is labeled cubbies. Here are the extras. DAX is a snack shelf only for cubbies. Repeats come instantly. You do not open the cubby every time. Global tables are the same cubbies in another town. Write here. It shows up there. Friends far away see the same toys. On-demand means you pay per grab. One coin for one lemon. Provisioned means you save a line for busy days. A strong read is now. An eventual read is in a moment. Snack shelf. Twin towns. Now you know the cubby extras!
