

The family tree

Neptune. Who is related to who. That is a graph.

VOICE-OVER (COPY THIS)

Welcome back to Cloud Town, high up in the sky! This is Episode 18. Dot has rows. Cubbies grab by name. The story vault is a pile of pages. Neptune is the family tree. It does not store a list. It stores who is related to who. Maya is friends with Eddie. Eddie is friends with Lulu. The tree shows the whole web. You ask, who knows who? Super fast. A list would take forever. The tree already knows the path. Friends of friends light up too. That is a graph. Now you know the family tree! See you next time in Cloud Town, high up in the sky!
